

Online Admission Module for Degree Colleges-2021-22

Guidelines to Allotted Candidates

1. The admission of candidates allotted in phase-I will be confirmed only after they report at the college allotted and confirm their admission through OTP received on the registered mobile number
2. Candidates who do not confirm their seats by the prescribed date and time will lose their admission
3. Mere possession of allotment order does not entitle a candidate for admission
4. If, for any reason, the candidate is not satisfied with the admission confirmed, he can exercise web options once again in the next phase
 - a) In such a case, if the candidate is allotted seat in the next phase after exercise of web options, he will lose admission which he/she has confirmed at the College in previous phase. It is therefore necessary that the candidate should exercise options which are better than the allotted college and programme.
 - b) If no seat is allotted in the next phase as per the web options exercised, the seat confirmed in the previous phase will remain intact
5. If a candidate does not confirm his/her allotted seat in the first phase, the allotment stands cancelled.
6. All candidates are eligible for the next round of counseling.
7. Candidate registered for the first phase of counseling, need not register for the next phase of counseling. He/She can directly exercise web options.
8. Candidate who has not registered for first phase of counseling can register for the next round of counseling by paying the requisite fee and can exercise web options.
